About Me

I'm an Electronic and Communication Engineering Diploma holder, I discovered a deep passion for web development during my final year. Eager to pursue this interest, I underwent training in front-end technologies including HTML, CSS, JavaScript, and React.js through Edureka. Within a month, I embarked on a journey as a Junior Web Developer at Charis Construction Pvt Ltd, where I've gained valuable hands-on experience over the past 10 months.

Experince

CHARIS CONSTRUCTION PVR LTD - JUNIOR WEB DEVELOPER

MARCH 2023 - DECEMBER 2023

Designed, developed, and maintained web applications using the MERN (MongoDB, Express.js, React.js, Node.js) stack.

- Employee Portal: Developed a responsive web application to manage employee information, tasks, and attendance.
- Investor Portal: Implemented a secure investor portal with real-time project updates, financial reports, transaction details.
- International Group Website: Designed and build a website showcasing the company's group of companies worldwide.
- Nava Fashions: Contributed to building an e-commerce platform with a focus on seamless user experience.
